

Katun® Performance™ Toner for use in

HP LJ P4014/4015/4515-series

Printers

Katun PN: 37489,37490
OEM PN: CC364A, CC364X

Katun introduces another high-quality remanufactured toner cartridge, expanding our extensive line of products for use in HP printers and MFPs!

The introduction of this new toner expands Katun's large and growing offering of high-quality toners for HP printers and MFPs. This Katun® Performance™ toner cartridge offers cost savings at a time when dealers need it most – without compromising on quality, performance or yields. This machine series replaces the popular HP 4250 model series, and is still being actively placed in the field in large numbers, providing dealers and distributors with a significant long-term profit opportunity by simply switching from OEM toner to Katun® toner.

Benefits:

◆ High-Quality Remanufacturing

This remanufactured toner cartridge fits, installs, and performs similar to the OEM product, which helps make the transition from OEM toner to Katun® Performance™ toner seamless for your customers. Katun® Performance™ remanufactured toner cartridges are developed and remanufactured according to ASTM, STMC and ISO quality guidelines.

◆ Toner Performance You Can Trust

This Katun® Performance™ remanufactured toner cartridge has been developed and rigorously tested to provide outstanding image quality, image density, page yields, and fusing performance. Katun's testing and evaluation protocols ensure industry-leading performance, giving you a reliable, profitable OEM alternative.

◆ Reduce Your Expenses Today!

In today's economic environment, businesses of all sizes are looking for cost savings and other competitive advantages. This new Katun® Performance™ toner offers just that – significant cost savings versus OEM supplies, without sacrificing quality.

◆ Choose From A Wide Selection of Monochrome and Color Toners For Use In HP Printers!

Katun offers a wide selection of toner cartridges for use in most HP applications, including dozens of color cartridges utilizing chemical toner. When you want industry-leading quality and performance from a remanufactured toner cartridge, choose Katun® Performance™!

Machine Overview

In 2008, Hewlett Packard introduced the HP LJ P4014/4015/4515- series, geared towards medium to large work groups. This machine prints at speeds up to 45 pages per minute (43 ppm for A4) and has quick delivery speeds per page. The first page out is at 8.5 seconds from ready mode and time to completion (TTC) of 16.5 seconds. It has a 540 MHz processor to ensure high efficiency. The machine offers varying paper handling accessories, which includes an additional 500 sheet or 1500 sheet input tray, automatic duplexer for two-sided printing, and envelope feeder.
